

What our customers say

"Attending ARBURG Tech Days 2025 was an incredible experience. It was wonderful reconnecting with old friends, meeting new ones, and sharing such memorable moments together. I'm continually amazed by the passion, commitment, and forward-thinking mindset of the ARBURG organization — it truly sets them apart. The innovations and insights I gained will absolutely influence our work at Craftech and benefit our clients. I feel fortunate to call the ARBURG team both friends and mentors. A special thanks to our amazing ground crew, Robin and Benny, for taking such great care of all of us from the U.S. delegation. Your hospitality made the experience even more enjoyable."

Peter Weisel, VP Business Development
Craftech Corporatitions

ARBURG GmbH Co + KG,
Lossburg, Germany

Highlights

Over 40 system exhibitions demonstrate a wide variety of applications, learn about how...

- ARBURG's new ALLROUNDER TREND can fit right onto your shop floor
- GESTICA assists can help your operators
- Simple robot programming increases uptime
- To run moldflow analysis at the machine
- A digital mold can predict maintenance cycles
- To optimize your shop floor schedule by integrating ERP at the machine
- To do inline process quality control and collect data on each shot
- AI Control can optimize your operations

In addition to the many systems displays, our entire factory will be open for tours.

ARBURG USA Travel Package

We are making it easy for you to attend the Technology Days in Lossburg.

Land Package: \$900

With the Land Package you are in charge and flexible to choose your own flight arrangements – once you arrive in Lossburg we pick it up from there – hotel (4 nights), meals, transportation, special program is taken care off by the ARBURG USA team.

Full Package: \$2500

As an alternative we offer also a full package – ARBURG takes care of all the above including your flights (economy), this package provides full assistance yet less flexibility.

For further information please contact your ARBURG sales representative or Silvia Barwich at silvia_barwich@arburg.com. We are looking forward to see you in Lossburg and will ensure you have a pleasant and interesting trip exploring new injection molding technologies.
